The school rigidly adheres to translate this motto into reality through all Curricular & Co- Curricular Activities. We focus to realize its inherent implication in conformity with Indian Traditional Moral Values and Cultural Heritage.

We provide education that promotes academic, physical, spiritual and social development of each child. We do this through a stimulating environment and a broad and balanced curriculum.

**Our Values:**

- Encouraging compassion, care and respect through value based education

**Our Pedagogical Vision:**

Teaching at I.B. (L) Public School, aims at concept and skill development rather than a mere acquisition of knowledge. Our system makes the child centred education to the learning structure. They are supported by teachers, a strong peer group and parents as well. In this scheme of things, inquiry learning is the main goal, where students discover concepts, analyse and apply them in the real world. This brings about collaboration between the teachers and students.

**Our Teaching Learning approach:**

Our methodologies include inspiring a competitive and challenging environment for youngsters, with a supportive base, to get rid of their pre-conceived notions of success and failure, to encourage the mastery of new skills and concepts to make learning more effective, and value based, rather than text-book based.
