2.2 VISION, MISSION, VALUES, FOCUS & APPROACH

Name of the Academic Resources, Segment Wise

Vision Statement:

The School Motto "TAMSO MA JYOTIRGAMAYA" is lucidly embodied in the popular Vedic dictum which means, 'O GOD! LEAD ME FROM DARKNESS (IGNORANCE) TO LIGHT (KNOWLEDGE) i.e. 'HEY PARMATMA, TU MUJHEY ANDHKAR (AGYANTA) SE PARKASH (GYAN) KI TARAF LEY CHAL.'

The school rigidly adheres to translate this motto into reality through all Curricular & Co- Curricular Activities. We focus to realize its inherent implication in conformity with Indian Traditional Moral Values and Cultural Heritage.

Mission Statement:

We provide education that promotes academic, physical, spiritual and social development of each child. We do this through a stimulating environment and a broad and balanced curriculum.

Our Values:

- Encouraging compassion, care and respect through value based education
- Nurturing the child's spirituality through prayer and worship
- Developing the pupil's individual talents

- Encouraging the pupils to do their best
- Promoting family involvement in our school
- Valuing each child's individuality

Our Focus:

The avowed aim & objectives of the school Ethos are to ensure development of all types of VIRTUOUS PERSONALITY TRAITS among students, both boys and girls, keeping in view all the requisite needs and necessities of the fast evolving modern society. The school aims at upholding all the essentials of our Indian Traditional Human/ Moral Values and socially desirable norms so as to make them socially useful, enlightened, vigilant and enthusiastic citizen of tomorrow and to become a better human being.

Our Pedagogical Vision:

Teaching at I.B. (L) Public School, aims at concept and skill development rather than a mere acquisition of knowledge. Our system makes the child centred education to the learning structure. They are supported by teachers, a strong peer group and parents as well. In this scheme of things, inquiry learning is the main goal, where students discover concepts, analyse and apply them in the real world. This brings about collaboration between the teachers and students.

Our Teaching Learning approach:

Our methodologies include inspiring a competitive and challenging environment for youngsters, with a supportive base, to get rid of their pre-conceived notions of success and failure, to encourage the mastery of new skills and concepts to make learning more effective, and value based, rather than text-book based. They are encouraged to think out of the box.
